OFFICE: No. 15 Quincy Street.

SATURDAY, AUGUST 30, 1873. Is it not about time that the discussion on the removal of the Capital be commenced again? We have not heard any thing about it for several months. Can't the Wheeling papers come at us again?—

Kanawha Journal, Don't care if we do; and we will begin by remarking that we saw it mentioned in one of our exchanges, the other day, as an extract from a private letter, if we remember correctly, written from Parkers burg, that a combination had been quietly effected which would secure the removal of the Capital to Grafton immediately on the reassembling of the Legislature. We don't know just what there may be in this, but we recall the fact that the Senstor whose smile is childlike and bland was over at White Sulphur, some time since, in company with Speaker MILLER, of this city, and some other Democratic State politicians of distinction. It was suggested that a conference was held with reference to the impeachment of Gov. Jacob, but the shrewder surmise is that the business discussed was of a more practical nature. There seems to be reason to connect the election of the next Senator with the removal of the WALKER is understood to be a andidate and as he must be aware that Lie race at Charleston as Public Printer is about run, what more natural than that he should attempt by a bold stroke to win the place in the Senate. It his influence opportunely exerted could secure removal a point on the B. & O. Railroad, it would be very ungrateful on the part of the "Smilling Senator" not to set up the legislative pins for WALKER in the winter of 1874-5. Perhaps the Charleston papers had best not crow till they are out of the woods, and possibly they would do well to keep a sharp look out close home. THE Journal of Commerce prints figure

from the books of the Treasury in advance of publication which show that the total receipts of the Government for the year ending June 30, 1873, were \$333,738,204 and the total expenditures \$290,345,245 The total debt on the 1st of July 1873 deducting cash in the Treasury was \$2, 147.818.713. The pet reduction of the debt during the year was \$43,667,630.

THE Cumberland News don't think much of the proposed convention of brass bands at Weston. It concludes a reierence to it by remarking: "Just imagine what the residents of Weston will have to endure. It is too sad to dwell upon ! The editor of the News will never be able to do justice to West Virginia affairs until

THE Wellsburg News finds a tresh ar gument in favor of a railroad up Buffslo in the enormous proportions of some Peachblow potatoes sent to the editor by a friend at Bethany. Nothing short of a railroad is equal to their convenient transportation.

THE Wellsburg News referring to the fire-brick manufacture about New Cumberland, expresses the belief that the P W. & K. Railroad will be extended to that point before many years. It ought to be done next season.

" Pnts" and " Calls."

"Pais" and "Calls."

(From the Philadelphia Leager.)

Question by Correspondent—Can you
give me an intelligent definition of the
words put and call, which appear to belong
to the business of stock brokering? There
seems to be a foggy idea of their meaning,
and myself, in common with others,
would like to understand them.

Answer by Editor—"Put" is a technical
or slang term among brokers, and means

Anner by Editor—"Put" is a technical or slang term among brokers, and means that one party will give down a round sum of money, say fifty dollars, a hundred dollars, or any otiger amount agreed upon, for the privilege of delivering to another a given number of shares of stock at a specified price within a limited time. The party may or may not deliver the shares. If the price within the time goes down sufficiently to give him profit over what he paid for the privilege, he will deliver, or, rather, he will demand the difference between the stipulated price of the stock or, rather, he will demand the difference between the stipulated price of the stock and the market price on the day that he profers himself ready to put it to the other's order, for the stock is rarely, if ever, put; the transaction is simply a wager that the stock will go down, and is purely a gambling operation. A "call" is the same sort of a transaction as a "put," only in an opposite direction; so much cash down is paid for the prictice of calling a given amount of stock at a price named, and is simply a bet that the price will advance within the time stipulated more than has been paid for the privilege of the "call." In this rather discreditable sort of business the party buying a priviley can lose no more than a price can be considered as a price of the party buying a priviley can lose no more than been paid for the privilege of the "call." "POOLIN" WITH FIRE ARMS.—On last Sabbath morning, Jimmie Blair, a youth of some ten summers, while visiting at of some ten summers, while visiting at Mr. Benj. Taylor's, out a few miles from Martin's Ferry, found an old pistol. He took it up and commenced fooling with it. Boon a report was heard; Jimmie had loat the fore-floger of his left hand, and the balance of the contents just whizzed past the head gof an old gentleman named Cunningham, who was scated in the room. You all know the moral.—Martin's Ferry Netts.

The storm of Wednesday washed away the culvert at Clendenning's, on the rail-road, carrying the stones into river. It also destroyed those at Ezby Wells' and also destroyed mose at AZV Weils and Bane's run, causing the road bed to slip at the narrows below Wellsburg. Abra-ham Wilson had a fine riding mare killed by lightning. The storm seemed to break at Green's run, Buffalo township, sweep-ing it clean.—Wellsburg News.

THE "UNCLEAN THING" WITH INTER-EST.—John T. Bird, of the third New Jersey district, (a Democrat.) yesterday covered his back pay into the Tressury with interest from the date of the passage of the law. Very few birds have thus far been discovered who flock with him.— Wash. Star.

THE Ashantee King who is threatening Cape Coast Castle, can bring into the field, it is said, 100,000 men, armed with long muskets, short carbines, and pike and fed at the expense of the King him self, who has enormous wealth in provis-ions and the revenue derived from his gold mines, and a tax on private gold

Bold Burglary at New Cumberland. (From the Hancock Courier.)
The residence of Mrs. Charles Bowers

The residence of Mrs. Carles. Bowers, New Cumberland, was entered last Thursday night, between twelve and one o'clock and money and a watch; amounting in all to about \$200 was stolen. The thief or thieves, (for it is supposed there were two) gained entrance to the buildings by removing the sash from the kitchen window, and then had full range of the house as the incide doors were all open. dow, and then had full range of the house, as the inside doors were all open. Mrs. Bowers was awakened by a noise, and upon opening her eyes, discovered a man, dressed in light clothes, standing by the bod with a revolver in his hand. Mrs. B. was terribly frightened, but remained perfectly quiet until the man passed into another room. She immediately jumped out of bed. and ran into a room where Mr. Filson, a young man in her employ, was sleeping. Filson got out of bed and instituted a search, when he employ, was sleeping. Filson got ou bed and instituted a search, when bed and instituted a search, when he found that his pocket book, which he had placed under his pillow, containing some eighty odd dollars, had been taken. Upon further investigation, Mrs. B's dress, in the pocket of which she had placed eixty dollars, was found lying across the front door minus the "spons." After looking about for the intruders, Filson went back to his room to nick up his watch which to his room to pick up his watch whic to his from the head of while putting on his clothes, but, presto, the watch had disappeared, plainly indicating that "another fellow" had been under the bed, and made his escape by the window while Filson was 'looking for him."
